

MyMonitor New user guide

New redesign of user experience

From January 2026

Summary

- 1 Dashboard page
- 2 Vessel page
 - A/ Overview
 - B/ Equipment
 - C/ Analysis Page
- 3 Form : create a sample

1- Dashboard page

This is the new Dashboard Page

The screenshot shows the Lubmarine dashboard with the following sections and annotations:

- 1** **Vessel Status Cards**: A row of five cards showing vessel counts by status: Urgent (2 vessels), Caution (1 vessel), Normal (2 vessels), Without analysis (9 vessels), and Samples status (0/10).
 - 4** **Create a sample**: A red button labeled "+ Create a sample" located in the top right corner of the status cards area.
- 2** **Vessels need your attention**: A list of vessels with urgent or caution analysis:
 - VESSEL E**: Urgent, TEST OWNER, Report 25/01/2026, Analysis status: Rolling 12-month, Year to date. Status: No analysis displayed for this period.
 - VESSEL A**: Urgent, TEST OWNER, Report 25/01/2026, Analysis status: Rolling 12-month, Year to date. Status: No analysis displayed for this period.
 - VESSEL B**: Caution, TEST OWNER, Report 25/01/2026, Analysis status: Rolling 12-month, Year to date. Status: No analysis displayed for this period.
 - 5** **Favorite vessel**: A star icon on the vessel B card.
- 3** **Vessels over 6 months without analysis**: A list of vessels with no recent reports:
 - RANDOM C**: No Report, RANDOM OWNER, Report 03/01/2022, Analysis status: No New Report, For 4 years.

- 1** New card with number of vessels which are in urgent, caution, without analysis and also sample status which shows you the sample that are currently sent or in progress
- 2** - Block « Vessel need your attention » means vessel which have some analysis in urgent and caution only
- 3** - Block « Over 6 months without analysis » which refers to vessels that have not received analysis for more than 6 months
- 4** - Possibility to create sample
- 5** - User can add a vessel to their favorites by clicking the star on the vessel card.

2- Vessel page 1/3

This is the new vessel page. It will be sorted by default by newest sample date.

Vessel

All vessels Favorites

Search by vessel name, by IMO

14 vessels

1 Sort Newest report

2

3

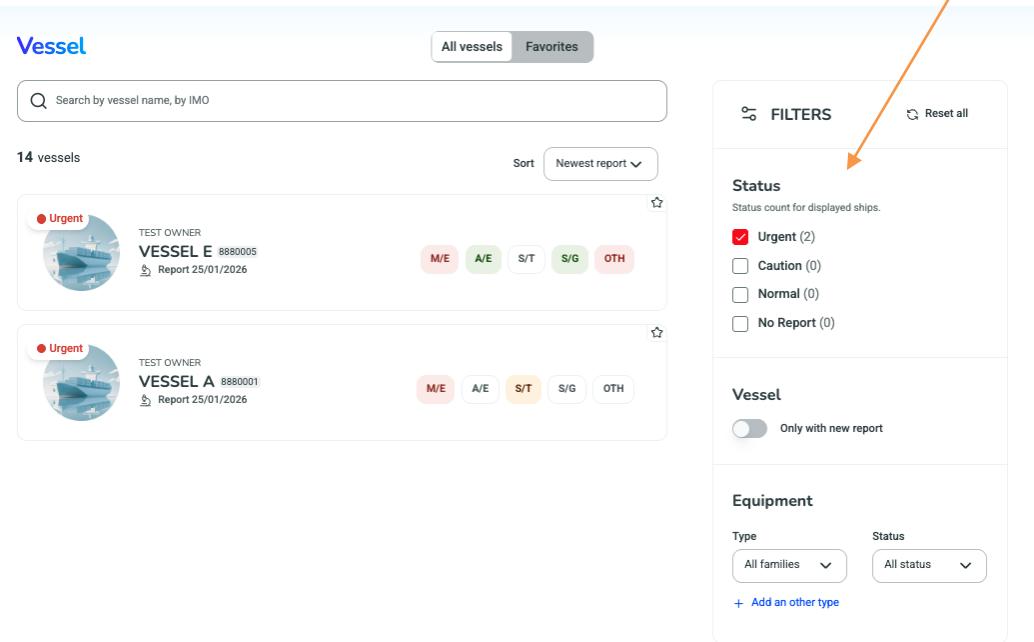

The screenshot shows a list of four vessels: VESSEL G (Normal, Report 25/01/2026), VESSEL E (Urgent, Report 25/01/2026), VESSEL C (Normal, Report 25/01/2026), and VESSEL B (Caution, Report 25/01/2026). Each vessel card includes a thumbnail, owner information, vessel name, IMO number, report date, and equipment status buttons (M/E, A/E, S/T, S/G, OTH). To the right is a sidebar with a 'FILTERS' section. The 'Status' section shows counts for Urgent (2), Caution (1), Normal (2), and No Report (9). The 'Vessel' section has a toggle for 'Only with new report'. The 'Equipment' section has dropdowns for 'Type' (All families) and 'Status' (All status), with a link to 'Add an other type'.

- 1 The user will have the possibility to sort by newest report date, oldest report date, by alphabetically..
- 2 He can also filter by status, show only new reports, or sort by equipment family by using this new block.
- 3 Possibility to add your vessel in favorites in order to use the toggle and filtered only by your favorites.

2- Vessel page 2/3

Here some examples

1 Example 1: The user has filtered by « Urgent » status and we can see displayed « VESSEL E and VESSEL A ». It is the only one that has an analysis in urgent which belongs to « other equipement » family.

Example 3 : The user has filtered by family equipment « Other equipment » and has chosen the urgent status.

He will see only vessels that have some analyses in urgent in the « Other Equipment » family.

2)A- Vessel page – Overview

On this page you can see an overview of your vessel.

Lubmarine Vessel Overview Page:

- 1** Urgent: 2 equipments
- 2** Caution: 1 equipment
- 3** Normal: 3 equipments
- 4** Without analysis: 1 equipment
- 5** Samples status: 0/0

3 Equipment need your attention:

- MAIN ENGINE CYL 1 - SPN LMTV0050001 TALUSIA OPTIMA 4007 Report 26/01/2026 Urgent +1 New Report + Sample
- THRUSTER - SPN LMTV0050008 CORTIS SH 68 Report 26/01/2026 Urgent +1 New Report + Sample
- MAIN ENGINE CYL 2 - SPN LMTV0050002 TALUSIA OPTIMA 4007 Report 26/01/2026 Caution +1 New Report + Sample

4 Over 6 months without analysis:

- STERN TUBE AFT - SPN LMTV0050006 STERNWAY XT Report 27/06/2025 Caution No New Report + Sample

5 Statistics:

- Analysis status: Rolling 12-month, Year to date. There is no analysis displayed for this period.
- Analysis by equipment category: Rolling 12-month, Year to date. The chart shows the following data:

Category	Count
M/E	3
A/E	1
S/T	1
S/G	1
OTH	1

You will see for your vessel :

- Number of equipment with their status and samples which are sent or in progress
- Possibility to create your sample, download the list of SPN and have them in QR Code
- Equipment need your attention (Urgent and Caution)
Here you can see all equipment which are some analysis in urgent and caution
- Equipment without analysis for more than 6 months
Here you can see all Sample points that have not received analysis for more than 6 monhts..
- Statistic section :
 - Analysis status :Total number of reports made during the current year with their statuses for this vessel
 - Analysis by equipment category : Number of analyses by equipment category which have been made for this vessel.

2)A- Vessel page – Overview – No analysis for over 6 months

The screenshot shows the Lubmarine vessel overview page for Vessel F. At the top, there are tabs for Overview, Equipment, and Engine Monitor. The Overview tab is selected. Below the tabs, there are four status boxes: Urgent (0), Caution (0), Normal (0), and Without analysis (3). An orange arrow points from the 'Without analysis' box to the 'Samples status' box, which shows 0/0. The 'Samples status' box also indicates 'In progress vs Sent form' with a progress bar. Below this, there is a section titled 'Equipment need your attention' with a ship icon and a message stating 'There are currently no equipments in urgent and caution'. Another orange arrow points from this section to the 'Analysis status' box. The 'Analysis status' box shows 'There is no analysis displayed for this period.' At the bottom, there is a section titled 'Over 6 months without analysis' with a table of three entries: AUXILIARY ENGINE - SPN, STERN TUBE - SPN, and MAIN ENGINE - SPN. Each entry includes a report date (27/06/2025), status (Normal, Caution), and 'No New Report' button. An orange arrow points from this section to the 'Analysis by equipment category' chart. The 'Analysis by equipment category' chart is a bar chart with categories M/E, A/E, and S/T, all showing a value of 1.0.

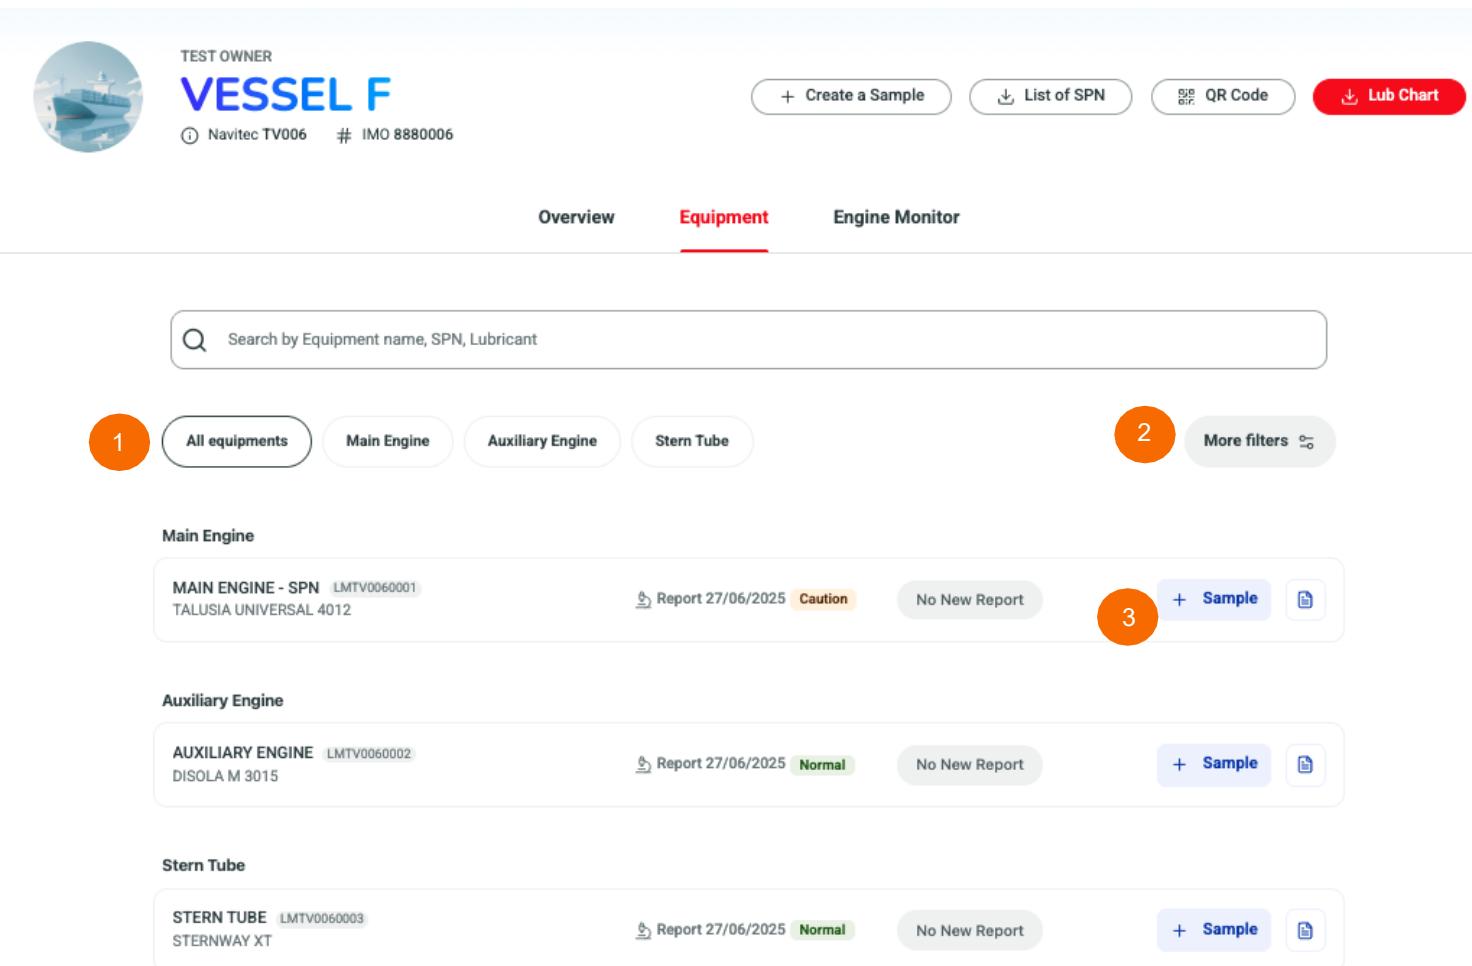

1 In this case all your analyses are considered as « no status » because the last analyses was performed more than 6 months.

2 Even if you have some analysis in urgent and caution, they will not be displayed in this area because they are more than 6 months old.

You will find all your analyses made in the section « Over 6 months without analysis »

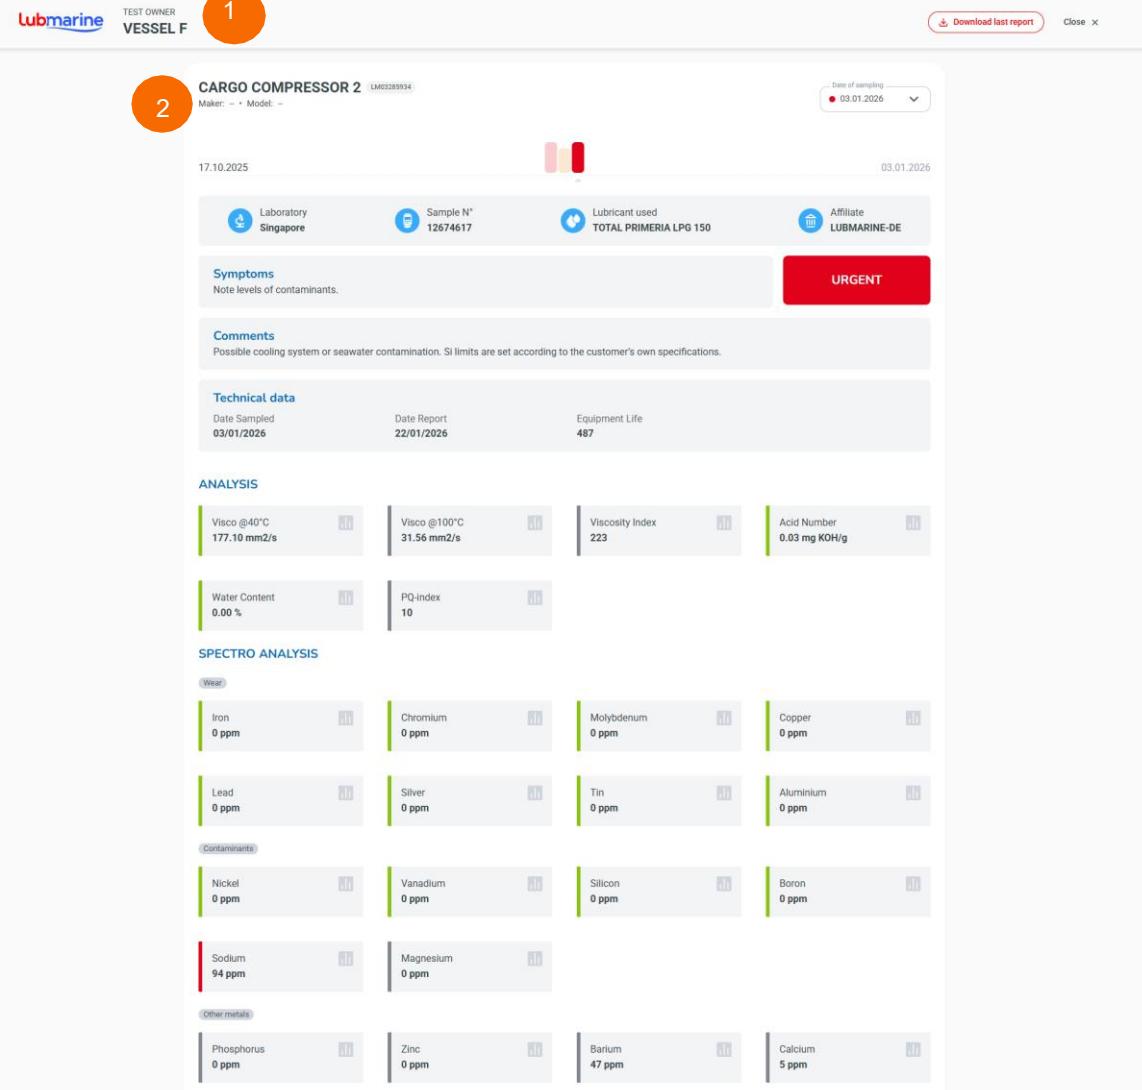

2)B- Vessel page – *Equipment page*

The screenshot shows the 'Equipment' tab of the Vessel page. At the top, there is a header with the vessel's name 'VESSEL F', its owner 'TEST OWNER', and its identification 'Navitec TV006 # IMO 8880006'. Below the header are buttons for 'Create a Sample', 'List of SPN', 'QR Code', and 'Lub Chart'. The 'Equipment' tab is selected, showing a search bar and a list of equipment categories: 'All equipments', 'Main Engine', 'Auxiliary Engine', and 'Stern Tube'. A 'More filters' button is also present. The 'Main Engine' section displays a card for 'MAIN ENGINE - SPN LMTV006001' (TALUSIA UNIVERSAL 4012), with a 'Report 27/06/2025' status 'Caution', a 'No New Report' button, and a 'Sample' button with a plus sign. The 'Auxiliary Engine' and 'Stern Tube' sections follow a similar layout with their respective equipment details and status indicators.

- 1 You have possibility to filter by equipement family.
- 2 You have the possibility to use additional filters for see only sample points that are in urgent for exemple...
- 3 By clicking on the « + » you can create a sample. By clicking on the arrow you will be redirected to analysis page.

2)C- Vessel page – Analysis page
